

Sydney Interactive Theatre

Interactive theatre is part game, part tour, part theatre, part bar crawl in the Rocks Sydney. With professional actors taking you on a crazy journey set in the city streets. Sydney Interactive Theatre was started with the purpose of disrupting the traditional theatre – audience experience. By offering the interactive format we aim to attract those traditionally not theatre lovers and appeal to a wider audience.

Why Interactive Theatre?

- Work together to achieve a common goal.
- Open up new lines of communication between team mates.
- Take a step outside of their comfort zone.
- Develop informal 'out of work' relationships.
- Use their 'whole brain' as they work together in a different way.
- Relax, enjoy, laugh (with each other and at themselves).
- A completely unique experience.
- Takes your idea of an Amazing Race to a whole new level.
- Works with various team and group sizes.
- Tickets include a couple of drinks and a food platter.
- Unlike any type of corporate event you have done before.
